you move forward*

Building communications for the future.

CONSTRUCTION AND INSTALLATION

TELECON builds and installs high-technology networks to the most exacting standards. It is a detailed process involving every step from planning to completed installation.

TELECON experience makes all the difference in maintaining complex equipment. It is the key to networks that last and last.

MAINTENANCE AND REPAIR

Beyond construction and installation, TELECON maintenance and repair services ensure optimum performance and complete peace of mind.

EMERGENCY

Operating 24/7, TELECON's emergency services are able to restore service when the unexpected occurs.

As a leader in the Canadian telecommunications industry for over 40 years, TELECON is committed to thriving on excellence, evolving and embracing technological change, and bringing you best-in-class service.
